

CLINIC CLOSURE

CORONAVIRUS

With the current situation regarding COVID-19, the Ordre des Dentistes du Québec has order that from Monday March 16th for a least 14 days all preventive and non-urgent appointments be reported in the future. This situation will be reevaluated in the future with the evolution of the situation.

The clinic will be closed but we will be available to receive emergencies. By emergency, we mean those to deal with an important infection, important pain or a trauma that necessitate immediate care. When a patient will call to the clinic for emergency care, a dentist will discuss with him on the phone and evaluate if he needs to see the patient at the clinic or if it can be resolve over the phone.

All other appointments need to be postponed. Please call to the clinic at 514-499-0984 in case of emergency. Follow our Website, Facebook page and the message on the answering machine at the clinic for further information.

We recommend to all our clients and friends to stay at home and practice social distancing. If you develop symptoms don't go directly at the hospital but call 1-877-644-4545 and you will be directed to a screening center.
